Keep Your Revenue Moving: Audit

2020-04-02 - Steve Groetken - Comments (0) - General

Utilize Daycos Audit to Find Revenue

The easiest and fastest way to recover missing revenue is to utilize the Daycos post-audit service. We are expecting that demand for this service will grow considerably over the next few months, and while we are trying to find ways to increase capacity to meet the demand, we want to make sure our existing customers are able to be first in line for the chance to recover some revenue. To do so, we encourage all of our existing audit customers to expedite their efforts to get their audit files sent to us for review.

If you have audit files to send, or want more information about audit service, please contact Jane Carole Bunting, our HHG Relationship Manager, at janecaroleb@daycos.com.
